Create an account on OpenStreetMap

OSM is a free, open geographic database updated and maintained by a community of volunteers via open collaboration. You are invited to register and contribute

### OpenStreetMap

- Install OSMAnd App
- Enable OSM Editing Plugin in OSMAnd - Plugins
- Login to OSM from OSMAnd settings

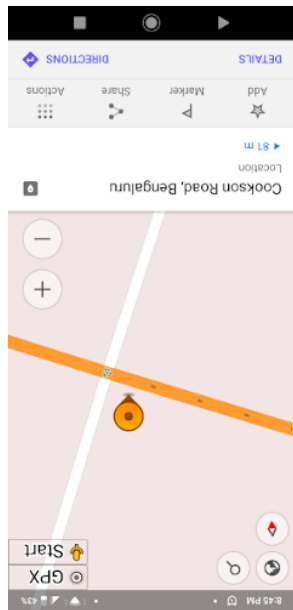

### App Setup

### OSM Tags

- surveillance=indoor/outdoor/public
  - indoor - indoor-use (banks,museums, schools etc). I don't map them.
  - outdoor - outdoor cameras at petrol bunks, offices, malls etc Mostly owned by private entities.
  - public - public cameras, roads,circles, parks etc. Mostly ownedby some kind of government entity
- surveillance:type=camera
- surveillance:zone=town/parking/traffic/ shop/bank/building
- camera:type=fixed/panning/dome

### About

My interest in mapping surveillance in Bengaluru started in the middle of 2019 when I began mapping the city's CCTV cameras on OpenStreetMap (OSM). Initially, there were very few CCTV mappers. But now, I see many OSM contributors mapping CCTVs. We are just regular contributors to OSM and are not officially or unofficially organized! This page is my way of tracking the progress of this project

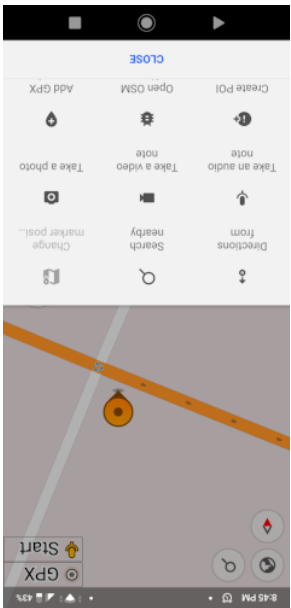

### Go to Location

Long press on the place where you want to add. And select actions menu.

### Save and Upload

Click save and Upload to OSM

Select create POI

### Create Poi

### Add Tags

Select Surveillance in tag. Go to advanced and add other tags and values.
